RESPONSE

Honorable Commissioner of  
Patents and Trademarks  
Washington, D. C. 20231

Sir:

This is in response to the Restriction Requirement dated June 7, 2001 in the subject application.

Applicants hereby elect, with traverse, the invention of Group II, claims 2, 5, 19 and 21 drawn to monoclonal antibody 6B2-2, the hybridoma cell line producing said antibody, a pharmaceutical composition comprising said composition and a kit comprising said antibody. Applicants request that the specific method groups that call on a product be rejoined should the claims for the product be allowable. Applicants reserve the right to prosecute the nonelected claims in other applications.

The Examiner is requested to reconsider the restriction requirement and to consider the claims of groups I-X

together. The claims of groups I-III are drawn to monoclonal antibodies which, even though distinct, recognize the C-fragment of Botulinum neurotoxin serotype A (BoNT A). The claims of groups IV-X are drawn to the amino acid and polynucleotide binding domains of the monoclonal antibodies. It is respectfully submitted that a complete search related to one of the monoclonal antibodies against BoNT A would necessarily cover art related to all the monoclonal antibodies and amino acid and/or nucleotide binding domains of such antibodies. As such, it would not place added demands on the Examiner to examine the claims in groups I-X, or claims 1-13 and 18-21. Reconsideration of the restriction requirement is respectfully requested.

An early and favorable action on the merits is respectfully requested.

Respectfully

submitted,

By *Elizabeth Arwine* Reg. No. 39,441
